

Boil Water Rescind Notice

On December 1, 2011, the Texas Commission on Environmental Quality (TCEQ) required the City of Granger to issue a Boil Water Notice (BWN) to inform our customers, **on the East Side of Hwy 95**, that due to the presence of contaminants or an interruption in service, water from our system must be boiled prior to consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, or and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water **no longer requires boiling**.

If you have any questions, please contact Granger City Hall at 512-859-2755.
